

src/temperature_sensor
_driver.cpp

```
graph TD; A["src/temperature_sensor_driver.cpp"] --> B["temperature_sensor_driver.h"]; A --> C["Arduino.h"]
```

The diagram illustrates the dependencies of the file `src/temperature_sensor_driver.cpp`. It is represented by a dark gray box at the top. Two blue arrows point downwards from this box to two other boxes below it. The left box, labeled `temperature_sensor_driver.h`, is light gray. The right box, labeled `Arduino.h`, is also light gray. This visualizes that the C++ source file depends on both its corresponding header file and the Arduino core library.
